The City Clerk presented a letter of resignation received from Lodi Recreation Commissioner Dan R. Anderson, which resignation is effective December 31, 1980. FOLSOM SOUTH  
CANAL

Council received a letter from United States Senator Alan Cranston thanking City Manager Graves for his message about the possible inclusion of the Lower American River in legislation making additions to the national wild and scenic rivers system. Senator Cranston indicated that it was his understanding that federal designation of the Lower American River would not preclude the construction and operation of the Folsom South Canal. However, he appreciated receiving the information that the City of Lodi feels that federal designation would be premature. Senator Cranston indicated that the Lower American River was not included in the omnibus rivers bill passed by the Senate in the closing hours of the 96th Congress; and that moreover, final action was not completed on the omnibus rivers bill and the measure died when Congress adjourned.

City Manager Graves reported on a recent news release received from U.S. Department of the Interior Secretary Andrus concerning decisions on Auburn Dam safety and reauthorization.

Following recommendation of City Manager Graves the City Clerk was directed by Council to send a letter to Senator Cranston supporting the City's position in this matter.

PROPOSED  
ELIMINATION OF  
GC SECTION  
24252, SHERIFFS  
AND CLERKS;  
OFFICES IN  
CITIES OF NOT  
LESS THAN  
35,000  
POPULATION

The City Clerk presented a letter which had been received from C. E. Dixon, San Joaquin County Administrator, advising that as they approach the budgeting process for FY 81-82, they are investigating means of reducing the demand on County funds. One of the areas of interest is in the elimination of State Mandates, which are not funded by the State, and which do not constitute a justifiable priority rating for continuation. Section 24251 of the State of California Government Code requires that Sheriffs and clerks shall also have offices in each city containing a population of not less than 35,000 as ascertained by the preceding census taken under the authority of the Congress or the Legislature in which the city hall is not less than eight miles distance from the site of the county courthouse. Following discussion, on motion of Mayor Pro Tempore McCarty, Pinkerton second, Council supported the County of San Joaquin in proposing the elimination of State mandate under Section 24251, State of California, Government Code regarding sheriffs and clerks offices in cities of not less than 35,000 population.

REQUEST FOR A  
DESIGNATED  
MEMORIAL BLDG.  
RECEIVED FROM  
VETERANS OF  
FOREIGN  
WARS

City Clerk Reimche presented a petition from Lodi Post Number 1968, Veterans of Foreign Wars, respectfully requesting a designated Memorial Building. The petition states that on the occasion of their Golden Anniversary, they do not have a building for the Veterans of foreign Wars who served in WWI, WWII, the Korean Conflict and the Vietnam Area Conflict.

LETTER RECEIVED  
FROM MUSIC  
TEACHERS  
ASSOCIATION  
RE BUSINESS  
LICENSE  
REQUIREMENT

The City Clerk presented the following letter which had been received from Mrs. Peggy Robertson, President of the Music Teachers Association of California:

"We would like to protest the business license now being required of music teachers in the City of Lodi. All music teachers have not been requested to pay this tax - but those who have been listed as belonging to the Music Teachers Association of California. (The MTAC is a non-profit organization which requires high educational standards and encourages continuing education of its teachers.)

Music is fully recognized in law as an educational subject. Yet; licensing seems to be based upon the false assumption that private teaching is more a business than an educational activity. Since music teachers are educators they should be exempt from license fees just as the public school teacher is exempt.

The license has other ramifications which concern our members. We do foresee higher license fees - including the possibility of county fees, as well as possible zoning restrictions. Because we teach in our own homes, and because we want to see every interested child have the advantage of a musical education, children in Lodi from every economic strata have had the opportunity to learn a skill which will serve them in adult life as recreation and as a means of participation in

community life. Churches and many other community organizations depend upon those skills taught by the independent music teacher. Please help us to keep our lessons affordable.

Although we are not paid by LUSD, but by private citizens of Lodi, we strongly feel that we are and always will be teachers - not sellers - and we ask you to reconsider the appropriateness of requiring music teachers to have a business license."

A lengthy discussion followed with questions being directed to Staff and to Mrs. Robertson. No formal action was taken by the Council on the matter.

PETITION  
RECEIVED RE  
TRAFFIC  
PROBLEM IN  
AREA OF 1902  
SOUTH HUTCHINS  
STREET

City Clerk Reimche presented a petition containing approximately 157 signatures asking for relief of heavy traffic congestion in the area of 1902 South Hutchins Street, Lodi, and requesting that the frontage road be extended beyond its present stopping point to Mendocino Drive.

Council discussion followed with questions being directed to Staff regarding the subject. Public Works Director Ronsko indicated that this particular area was an area of concern and that it is Staff's intention to bring this matter to the Council at a future meeting.

CITY TO  
SELL LA FRANCE  
FIRE ENGINE  
FOR RAFFLE  
PRIZE FOR  
FIELD & FAIR  
DAY

The City Clerk presented a letter which had been received from Ben Schaffer, Chairman of the Old LUHS Site Foundation Committee, who is involved in raising money for the purchase of the property for the future Lodi Community Center requesting permission to buy (at a mutually agreed upon price), the retired LaFrance fire engine presently located at the Fire Station No. 3. The engine will become the property of the Foundation who will license and insure it. The Committee requests the Council's approval to store the engine at its present location until Field and Fair Day which has been set for September 7, 1981. The Committee plans to sell raffle tickets using the engine as the prize. The drawing will be on Labor Day. The engine will also be used for other promotional activities to raise money. If the raffle winner does not wish to claim his prize, the Committee is prepared to accept the engine as a donation and have it become a part of the Lodi Community Center and it will be named for its donor. The Committee shall seek funds to underwrite the raffle promotion, insurance and licensing costs and respectfully request the Council's endorsement of this project.

On motion of Councilman Pinkerton, McCarty second, Council approved the sale of the retired LaFrance Fire Engine presently located at the Fire Station No. 3 to the Lodi High School Site Foundation Committee for a raffle prize at the September 7, 1981 Field and Fair Day under the conditions set forth in the letter of request dated January 13, 1981.

COMMENTS BY  
CITY  
COUNCILMEN

SCHOOL IMPACTION  
TASK FORCE TO  
BE FORMED

Councilman Pinkerton pointed out that a recent newspaper article indicated that a County Task Force was being formed at the direction of County Board of Supervisors' Chairman Doug Wilhoit to seek solutions to the overcrowding in the County school systems and to give the Supervisors a more aggressive role in solving the problem of overcrowding. Council asked that a letter be directed to Chairman Wilhoit indicating its concern that the Lodi City Council be represented on this Task Force and for a clarification on the charge of the Task Force.

BATCH  
REORGANIZATION  
DENIAL

Mayor Pro Tempore McCarty addressed the Council regarding the recent Batch Reorganization denial by LAFCO. Following discussion on the matter, Council directed Community Development Director Schroeder to prepare a report concerning this denial and directed the City Clerk to obtain a copy of the subject LAFCO meeting minutes.

PROPOSED FIXED  
ROUTE  
TRANSPORTATION  
SYSTEM

Mayor Pro Tempore McCarty reported that representatives of CalTrans and Assistant City Manager Glenn have been meeting and are formulating a tentative fixed route plan for the City of Lodi. Mayor Pro Tempore McCarty concluded his remarks by stating that he trusted this information would be available for the Council shortly.

PROPOSED  
INITIATIVES

Councilman Hughes introduced the subject of the proposed "Green Belt" Initiative stating that he felt the public should be made aware that this proposed initiative may be unconstitutional. According to City Attorney Stein the legal problem arises in the fact that the proposed initiative requires voters to decide whether land will be annexed into Lodi. The requirement clashes with State law that places no such restriction on annexation of properties into cities.

The proposed initiative requires "an amendment to the City's Land Use Element of the General Plan be made and approved by a majority of the people voting in a city-wide election to annex land". City Attorney Stein said that in essence, therefore, you're requiring a vote on annexations. The constitutionality of similar local laws are presently being weighed in California courts.

Councilman Murphy proposed that once the petitions have been received by the City Clerk on the proposed initiatives, that the City set up public forums to respond to questions from the citizenry regarding these proposed initiatives.

ORDINANCE  
ADOPTING NEW  
ELECTRIC RATE  
SCHEDULE  
ENERGY PURCHASE

ORD. NO. 1220  
INTRODUCED

Council was informed that to encourage individuals to construct and operate small power generation facilities (particularly those using wind, solar or other renewable energy sources), the Federal Energy Regulatory Commission (FERC) has specified that all excess energy so generated, be purchased by the servicing electric utility. FERC has further stipulated that the purchase price be based on the utility's "avoided cost" (i.e. the cost to obtain power and energy from its normal source). Electric rate schedule EP as presented for Council's perusal, has been prepared to satisfy these requirements, which become effective March 20, 1981.

Following discussion, Mayor Pro Tempore McCarty introduced Ordinance No. 1220 adopting a new electric rate schedule "EP - Energy Purchase". The motion was seconded by Councilman Murphy and carried by unanimous vote.

COMMUNITY  
RELATIONS  
ASSISTANT

Following introduction of agenda item "n", "Review job specifications for Community Relations Assistant", a very lengthy Council discussion followed. It was proposed that this position be a "contract" position. Council also discussed who Mrs. Lange would report to.

Mayor Pro Tempore McCarty then moved that this position be a contract position. The motion was seconded by Councilman Pinkerton and carried by the following vote:

Ayes: Councilmen - Hughes, McCarty, Murphy,  
and Pinkerton

Noes: Councilmen - Katnich

Absent: Councilmen - None

Council tacitly concurred that Mrs. Lange would work for the City "under the direction of the City Manager by direction of the City Council".

Continued January 21, 1981

The motion was seconded by Councilman Murphy and carried by the following vote:

Ayes: Councilmen - Hughes, McCarty, Murphy  
and Pinkerton

Noes: Councilmen - Katnich

Absent: Councilmen - None

The job specifications for the Community Relations Assistant were discussed. Mrs. Lange was in the audience and responded to questions posed by Council. Following an inquiry regarding salary, Mayor Katnich adjourned the Council to a "closed session" at approximately 10:15 p.m. The Council reconvened at approximately 11:00 p.m.

On motion of Mayor Pro Tempore McCarty, Murphy second, Council by unanimous vote rescinded the heretofore listed actions concerning this position and voted to hire Mrs. Charlene Lange effective January 1, 1981 as Community Relations Assistant as an "unclassified employee", at the salary of \$1,430.87 per month, with the Mid-Management Compensation Package "B". The salary is to be a flat salary without range. The motion passed by unanimous vote.

#### POLICE DEPARTMENT REORGANIZATION

Agenda item "o" - "Police Department Reorganization" was introduced by Mayor Katnich who gave a brief history on the current organizational structure of the Police Department.

Councilman Murphy proposed that the position of Service Division Commander be filled by an officer of rank lower than that of captain and that the dollar savings of this action could then be spent in putting additional officers on the street.

Chief Yates was in the audience and responded to questions regarding the department as were posed by the Council. Chief Yates gave a history of the department staffing as it existed previous to 1975, discussed the POST survey that was conducted and the subsequent reorganization which was approved by the Council in 1975. Information concerning the responsibilities of each division was provided by the Chief of Police.

Councilman Hughes indicated he was opposed to Council discussing any type of reorganization of the Police Department as he felt the Council does not have expertise in this area. Councilman Hughes called for a recommendation from Chief Yates.

The adequacy of the class specifications for the Police Department were discussed.

A very lengthy discussion regarding the Department followed with questions being directed to the Chief of Police and the City Manager.

Mayor Pro Tempore McCarty then moved that for a one year trial period, a sergeant be appointed to supervise the Services Division and that the mid-management level be held at 4 lieutenants and 6 sergeants.

The motion died for lack of a second.

Continued January 21, 1981

Councilman Pinkerton stressed the importance of "continuity" within the department, and stated he doesn't feel the captains are rotated as they should be.

Mayor Katnich stated that he feels the organizational structure of the Council has merit as it is and that he feels any organizational changes should emanate from the Police Department to the City Manager to the City Council.

It allows greater financial flexibility and, therefore, potential savings. Other than authorizing the issuance of Bond Anticipation Notes, there is no other change in the authority previously approved.
